

## Epidemic Curve: Known Cases of COVID-19 by Date Reported Among Santa Cruz County Residents, as of April 3, 2020 (10:31 AM)

*This data represents Known Cases of COVID-19 among residents of Santa Cruz County, by date reported to the Communicable Disease Unit from health providers or electronic lab reporting. Data is considered provisional and subject to change. It is important to look at trends over time when reviewing these data rather than drawing conclusions from any individual data points, as data can change based on additional reporting and case investigation. Data was extracted from the California Reportable Disease Information Exchange (CalREDIE) database, as of Friday, April 3, 2020 at 10:31am. Displayed content was developed by the Epidemiology & General Surveillance Division of the Communicable Disease Unit for Santa Cruz County.*
